

SABINE COUNTY

MAP ATLAS

The Sabine County Map Atlas was created to help the men and women who provide emergency assistance to the citizens of Sabine County. The Sabine County Judge and Sabine County Commissioners were instrumental in developing this map atlas and hope that through this map atlas emergency service providers may be able to locate citizens in a timely manner in their emergency need. Photo on front cover was provided courtesy of [TexasCourthouses.com](http://www.texascourthouses.com) located on the web at <http://www.texascourthouses.com/>

The data contained in this atlas was developed from information collected from outside sources and while efforts were made to verify data, Sabine County does not guarantee the accuracy of the information contained in this atlas. Street names provided in the street index are intended to be a general guide to locating particular roads.

Addresses in the unincorporated areas of the county should have even and odd addresses on opposite sides of the street. Even addresses are normally found on the right side of the street, as the numbering sequence gets larger. Addresses can be converted to mileage by adding a decimal to end of the address number and moving the decimal forward three places.

This map atlas is a living document and will be updated as necessary. You can participate in this process by reporting any suggestions or corrections to the Sabine County 911 Addressing Department at 409-787-3570.
